Fog, cool, high overcast all made for a slow start and a fast finish. We tried to beat the sun by firing 600 first but was held up by the fog that moved in. Once the firing began the fog became thicker and the first relay had it bad. Following the first pit change, the fog began to clear and the scores began to rise. Don Miller of Duluth, MN dropped in on his way home from the coast and fired is first double clean in the rapid fire strings. We continue to have several new shooters returning so I guess the program is still bringing in new blood.

As a challenge, be on the lookout for new shooters to help start in high power for the new year. We have a great group of shooters and there is always a good day on the range. The program is posted for next year and the first match is Jan. 8.

See you on the firing line.
