#### **Awards:**

Regional Championship awards, based on the results of Saturday's 800-point NRA match, will be presented to the first, second and third place winners in each rifle category (service or match).

Place awards will be made by rifle type. If there are not five entries within a particular rifle type, then that rifle type will be deleted and individuals in that rifle type will be moved to another. As an example, Match Rifle could be combined with Match Rifle to form a Sling category vice having two separate categories.

Awards will also be made within classifications provided that there are a minimum of five competitors within that classification. Classes will be combined upward (19.8.1) as required except that the High

Master class will not be combined. If less than 5, the High Master classification will fire for place awards only.

Competitors winning a place award will not receive a class award in the same match.

The number of awards is determined by the number in the class. Second, third, fourth place, etc., awards will be given based on one award for each five (5) competitors, i.e., second 6-10; third 11-15, etc.

“Special Award Category” will be awarded only if there are three (3) or more in that category. Special Award Category winners may still receive place/class awards.

**Awards for the CMP EIC Matches-** will be determined and awarded by the CMP pending the review of the match results. Awards will be sent directly to the winning competitors and award points established based on the number of eligible NON-Distinguished competitors firing.

**Final Results Bulletin** will be posted to the Club’s webpage at [www.epcgc.com](http://www.epcgc.com). Competitors will be able to download and save and/or print their own results. For a paper copy of the final results competitors must provide the match director with a self-addressed stamped envelope.

Level-loading is required

Hearing Protection, eye protection, and a billed hat are required in the pits.

## 2021 CMP EYE PROTECTION RULE CHANGE

### Rule 3.6.2 Eye and Hearing Protection

All competitors and competition officials, including Scorers or Verifiers, are required to wear eye and hearing protection when on shooting range firing lines during highpower rifle firing. Eye protection must have two complete lenses with minimum dimensions in depth and width for each lens of 1.30 in. It is strongly recommended that eyewear worn on firing lines meet or exceed the ANSI Z87.1 safety standard impact protection. Competitors’ eyewear must be worn so that the two lenses remain in front of the eyes during firing (see diagram). **No one will be allowed to participate in a CMP-sanctioned competition unless they are wearing eyewear and hearing protection that complies with this rule. Any competitor or match official who is not in compliance with this rule will be warned in accordance with Rule 3.12.2 a). Refusal to comply with a warning is grounds for disqualification.**

## 2021 CMP SERVICE RIFLE RULE CHANGE

**4.1.1 M16/AR15-Type Service Rifle.** The rifle must be an M16 U. S. Service Rifle or a similar AR15-type commercial rifle that is derived from the M16 service rifle design. Rifles must exhibit the general overall external appearance of the M-16 rifle or carbine. Visible barrel profiles, handguards or quad rails, receivers, pistol grips, carry handles or rails and fixed or collapsible stocks must appear essentially the same as the M16 service rifle and must incorporate the following features; functional forward assist, integral case deflector, functional ejection port cover, MIL-SPEC standard charging handle, and a Picatinny rail located at standard MIL-SPEC height. The following specific rules apply to this rifle:

1. a) **Cartridge.** Must be chambered for the 5.56 x 45 mm NATO (.223) cartridge.
2. b) **Action.** Must be designed or modified so that only semi-automatic fire is possible. The gas operating system must be fully operable and adhere to the original M16 rifle design (i. e. Stoner design, gas impingement system) or have a piston-operated gas system. Adjustable gas blocks are not permitted. A gas block without a front sight is permitted. Left-handed receivers that reverse the operational design features of M16/AR-type rifles and with the ejection port opening upwards are permitted. An extended bolt release is permitted on both right and left-handed receivers, provided there are no permanent alterations to upper or lower receivers.
  1. i) Relieved (Milled/Cut) lowers are allowed, but the use of an extended bolt release that requires a relief in the receiver is not permitted. Extended bolt releases must be attached on the original manufactured side of the lower receiver.
  2. ii) **Billeted uppers and/or lower receivers are permitted, provided that lower receivers do not have integral trigger guards.**
  3. iii) Ambidextrous safeties, ambidextrous magazine releases and ambidextrous charging handles are permitted, provided no permanent alteration to the receiver was made to install them.
